

HKMA Bright Beginners Chamber

What do you usually do on Saturday for fun?

HKMA's new music programme "**Bright Beginners Chamber**" is a special orchestra designed for kids who have little or no experience playing together as a group with their own instruments.

The BBC aims to create a fun and sociable atmosphere that encourages kids to learn and make music as a group. The programme will teach them simple musical terms that are very important for early age learners. During rehearsals, we have coaches who practice with the kids so they will not become lost in music. They will learn classical music by famous composers such as Bach, Mozart and Beethoven etc. On the other hand, they will also have the opportunity to play modern pieces such as the songs you hear in Disney movies.

It is important to give children an opportunity to perform in their early ages to build up confidence and self-esteem to play in front of people.

The HKMA takes part in many performances every year at various occasions such as the annual concert performance at the airport, charity concert in hospitals, performance at the HK Disneyland...

Wow, what are you waiting for? Bring your kids and join us now to experience the miracle music journey!
